

**Thank you for your interest in GGT Arena Footing!**

We have a variety of arena footing products, ranging from 0.45 cents to \$1.30 per pound. We also have arena conditioners/groomers available for maintenance.

Our standard recipe recommendation is to have  $\frac{3}{4}$  of a pound of GGT-Footing per square foot, mixed with 3" of high-quality silica sand. However, this may vary depending on different factors such as environmental conditions, arena use, sand type/depth, and personal preference.

**We are happy to quote as low as  $\frac{1}{4}$  of a pound and up to 1 pound per square foot. We work as a consultant and create the quote according to how you answer our questionnaire.**

Since GGT-Footing is made up of pure polyester materials, it is very durable and won't break down. The sand will overtime, but GGT-Footing prolongs its life. With the Blended Footing options, it is important to get the correct type of sand, so it binds properly and functions to your satisfaction. We have found that a sub-angular silica sand works best.

**GGT-Footing does need to be maintained with watering and grooming.** Ideally with a sprinkler system so you'll be able to effectively keep good moisture content, and with a groomer designed with Tines and a Rear Cage Roller. This style helps mix the sand/GGT together to preserve the texture and blend. Our smallest groomer is 5ft wide, and can pulled behind and ATV, and our largest is 8 ft wide. Please let us know if you would like more information on our groomer options.

Name	Contents	Retail Pricing Per Pound
Retail	95% Geo 5% Fiber	\$..65
Pleasure	90% Geo, 10% Fiber	\$ .82
Dressage	85% Geo, 15% Fiber	\$ .89
Jumping (Elastic)	70% Geo, 20% Fiber, 10% Elastic	\$1.09
Jumping	70% Geo, 30% Fiber	\$1.09
Competition	50% Geo, 50% Fiber	\$1.30
